

POLYMAG®

Fits All Flexo Presses

Designed and manufactured in the U.S.A.

2RNWC-SS

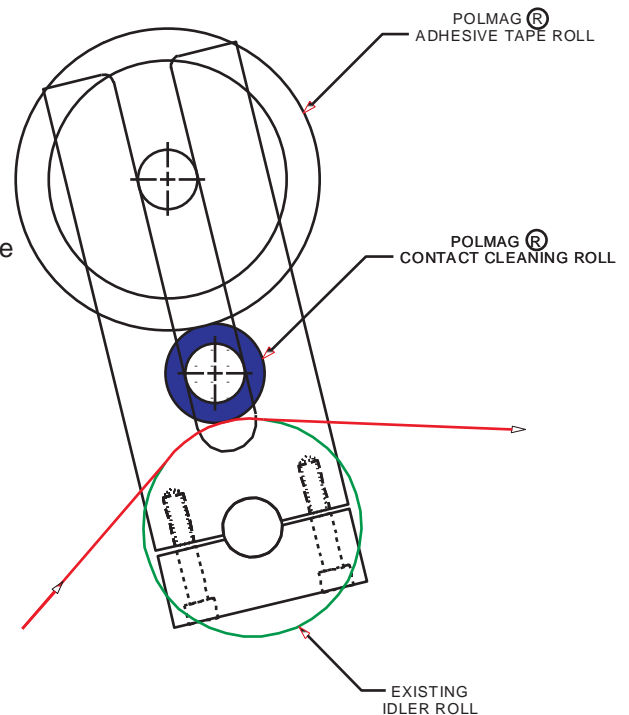

2 ROLL
NARROW WEB
CLEANER SYSTEM
- 20" WIDE WEB
PICTURED

Fits Any Flexo Web Presses

The Polymag® Narrow Web Cleaner System is designed to remove loose particulate contamination from a moving substrate. The Polymag® Blue Contact Cleaning Roll (CCR) contacts one side of the web as it transports through the cleaner. Surface contamination is transferred from the web to the polymeric covered CCR. The CCR is continuously cleaned with an Adhesive Tape Roll. When the Tape roll become saturated, a layer of tape can be removed. Each tape roll contains 66 feet of adhesive tape. Approximately one foot of tape is used per tape change.

***All Our Web Cleaner Systems can be custom designed to fit any application.**
Little or no press modification required.
Average installation time 5-15 minutes.
