

# Hand Held Contact Cleaning Roll

**ContactClean™** by Polymag Tek, Inc.

**Polymag® Tek Hand Held Contact Cleaning Rolls along with Polymag® Adhesive Tape Pads are used for manually cleaning loose, low volume surface contamination from sheets or flat surface parts.**

## Applications

- Sheet Cleaning
- Flat surface contaminant removal
- Spot Cleaning

## Features

- Specially Formulated Silicone-Polymer Blue-S™ Contact Cleaning Roll attracts unattached contaminants for removal without leaving any residue
- Removes Particles down to 1 micron in size
- Polymag® Tek Adhesive Tape Cleaning Pad quickly and effectively cleans the Contact Cleaning Roll
- Adhesive Tape cleaning pads are 9 inches x 13 inches and can be used for all roller widths

## Process Parameters

- Roll the HHCCR over the substrate to remove contaminants, then roll the HHCCR over the adhesive tape to clean the roller
- Hand Held Contact Cleaning Roll Systems should NEVER be used on a moving substrate or parts

## Options

- Available in High Tack, Medium Tack or Low Tack levels
- Polymag® Tek Blue-U™ Urethane Polymer material available
- Offered in 3 inch, 6 inch and 12 inch widths
